Career Objective

I am a Computer Science student with a keen interest in cross-platform application development, seeking opportunities to build scalable and user-friendly applications.

Career Summary

I am a Computer Science student and a passionate Flutter and React Native developer. I have experience building mobile applications and working with APIs. I am hardworking, quick to learn, and always ready to improve my skills. I am looking for an opportunity where I can grow as a developer and contribute to real-world projects. My goal is to become a professional software engineer and build useful applications that solve real problems.

Special Qualification

Strong knowledge of Flutter and React Native for mobile app development. Experience working with REST APIs and building user-friendly applications. Good problem-solving skills and ability to learn new technologies quickly.
